AAOMS DISTRICT VI CAUCUS & WSOMS ANNUAL MEETING

**UNLV SCHOOL OF DENTAL MEDICINE
LAS VEGAS, NV
SATURDAY, AUGUST 3, 2024**

PRESENTED BY:

BEACON
ORAL SPECIALISTS

WSOMS is a voluntary partnership of dental professionals working together to improve the quality of oral and maxillofacial surgery services in the community.

CONTINUING EDUCATION

Jasjit (Jas) Kaur Dillon is a Professor and Program Director of Oral and Maxillofacial Surgery at the University of Washington, Seattle, USA. She is also the Chief of OMS service at Harborview Medical Center; the only level I trauma center in the Pacific Northwest where she has a busy oncology, trauma and reconstructive practice. Her clinical training has been garnered from 5 countries – the UK, South Africa, Hong Kong, Vancouver BC, and San Francisco. She obtained her dental degrees from the University of Newcastle Upon Tyne (BDS), the University of California San Francisco (DDS) and her medical degree from St Bartholomew's School of Medicine, University of London (MBBS). She is a member of the Royal College of Surgeons of England (FDSRCS), the American College of Surgeons (FACS) and is a past examiner for the American Board of OMS. She has over 100 peer reviewed scientific publications, book chapters and lectures nationally and internationally. She is the recipient of two major grants studying medication related osteonecrosis of the jaws – one of which she received the Stephan Milam award for the highest scoring grant in 2016.

"65 F on Zolendronate Referred for Implant #19"
...
What's the Point of the 4th Position Paper?

(2 CE Units)

Do We Really Need Antibiotics for What We Do?

(2 CE Units)

These two lectures review the latest clinical research on MRONJ and antibiotics that are relevant to our day-to-day clinical practices. The format will be interactive, case-based where relevant with discussion. At the end of it, you will have a better understanding of how to approach complex clinical scenarios using the latest evidence based medicine.

(SEE ATTACHED)

AAOMS National Simulation Program

OBEAM Course Information

The AAOMS National Simulation Program allows participants to practice and master critical techniques for administering and monitoring office-based anesthesia. The purpose of the Office-Based Emergency Airway Management (OBEAM) module is to provide information to improve patient safety by understanding the human factors associated with patient safety, basic principles of crisis management as it relates to leadership in a crisis and specific models for managing crises in your office setting that will be practiced through simulation.

During the two-hour OBEAM module, participants review and practice concepts and skills for sedation monitoring and techniques for supplemental oxygen, opening an airway, bag-valve-mask (BVM) ventilation using one- and two-handed techniques, laryngeal mask airway (LMA) insertion and use of the Airtraq laryngoscope for endotracheal intubation. Ventilation parameters are manipulated so difficult BVM can be practiced and mastered after mastery of BVM in a normal configuration.

Registration

OBEAM sessions are available to AAOMS members only. The registration fee is $900. The registration deadline is July 27, 2024. No onsite registration will be allowed. Don't delay and register today!

Session Times

8:00-10:00am	10:30am-12:30pm	1:30pm-3:30pm	3:30pm-5:30pm

Continuing Education

Registrants will receive six (6) hours of continuing dental and medical education from AAOMS.
2024 OBEAM Continuing Education Provider Approval
