3 WAYS TO REGISTER!

1 ONLINE
Use the registration form at wsoms.org

2 FAX
Complete the form and then fax both sides to 360-392-8377

3 MAIL
Complete the form and then mail with payment to
WSOMS
1737 Edgewater Lane
Bellingham, WA 98226

BEFORE APRIL 30th to save $$

CONFERENCE SPEAKERS

STUART LIEBLICH, DMD
Clinical Professor, University of Connecticut
Avon Oral and Maxillofacial Surgery

Dr. Lieblich graduated from Rutgers University (Highest Honors, 1977) and the University of Pennsylvania School of Dental Medicine (1981). He completed his residency in oral and maxillofacial surgery at Kings County/Downstate Medical Center in New York. In 1984 he assumed a full-time position on the faculty of the University of Connecticut until 1988. Currently, he is in private practice in Avon, CT and maintains a part-time teaching appointment at the university as Clinical Professor. At the University of Connecticut, he lectures to the medical and dental students on head and neck anatomy (with special focus on the temporomandibular joint and the anatomy of orthognathic surgery) and also to the various postgrad residency programs. He is on the medical staff at Hartford Hospital, Connecticut Children’s Medical Center, St. Francis Hospital, John Dempsey Hospital (University of Connecticut Health Center) and Charlotte Hungerford Hospital (head, section of oral and maxillofacial surgery).

Dr. Lieblich has been a contributor to over 20 textbooks and recently co-authored the textbook Anesthesia Complications in the Dental Office with Dr. Bosack. He has published over 45 peer reviewed papers and abstracts. He is an invited speaker at conferences throughout the United States and has presented his research at international scientific meetings with focuses on ambulatory anesthesia, dental implants, dentoalveolar surgery and periapical surgery. Previously he has served as a director and president of the American Dental Society of Anesthesiology and following a 6-year term as a member of the examination committee of the American Board of Oral and Maxillofacial Surgery (chair of the medicine and anesthesia sections) he was elected to an eight-year term of the ABOMS board of directors (President 2009-2010).

Dr. Lieblich is on the editorial boards of the journals Anesthesia Progress; Oral Surgery, Oral Medicine Oral Pathology (“Triple O”) and the Journal of Oral and Maxillofacial Surgery (section editor, Anesthesia/facial pain). He regularly reviews articles for the International Journal of Oral and Maxillofacial Surgery, and General Dentistry. Dr. Lieblich serves on many local, state and national committees in his specialty and currently is a member of the American Dental Association’s Commission on Accreditation (oral and maxillofacial surgery) and the co-chair of the American Association of Oral and Maxillofacial Surgeons Parameters of Care Committee. He is currently a co-PI on a national multi-center study on the use of antibiotics for elective oral surgical procedures.

DANIEL PETRISOR, DMD, MD, FACS
Assistant Professor
Director, Head & Neck Oncologic and Microvascular Reconstructive Surgery
Department of Oral and Maxillofacial Surgery
Oregon Health & Science University

Dr. Petrisor is a board-certified surgeon with training in microvascular reconstructive surgery, head and neck surgery and oral and maxillofacial surgery. He holds a dental degree from Oregon Health & Science University and a medical degree from the University of Texas Southwestern Medical School. In addition to medical school, he also completed his residency at the University of Texas Southwestern Medical Center and Parkland Memorial Hospital in Dallas, Tx.

Following residency, Dr. Petrisor completed a fellowship in head and neck surgery and microvascular reconstructive surgery at Louisiana State University Health Sciences Center in Shreveport. He then completed an additional fellowship in microvascular reconstructive surgery at the University of Florida-Jacksonville.

Dr. Petrisor has a special interest in treating patients with benign and malignant tumors of the head and neck. He also has training in reconstruction of complex deformities of both hard and soft tissues. This combination of advanced training allows for a patient’s own tissues to be used for reconstructive surgery at the same time as their cancer surgery. Additionally, he is part of a team of physicians, dentists, nurses, nutritionists, therapists and social workers all working together to provide each patient the latest in comprehensive treatments for a variety of cancers of the mouth, head and neck.
The provision of ambulatory anesthesia is a vital component to the practice of oral and maxillofacial surgery. A contemporary review of anesthesia as practiced by the oral surgeon including a discussion of patient evaluation, medications and determining who can be treated in an office setting will be discussed. Actual case scenarios will be reviewed to illustrate various issues throughout the day. Included in the discussions will be some recommendations on local anesthetic use and integrating oral sedation into an oral surgery practice. Includes:

- Patient evaluation and selection for office anesthesia
- Cardiovascular issues: hyper/hypotension; dysrhythmias
- Respiratory urgencies and emergencies
- Top “Stupid” anesthetic mistakes
- Oral sedation for the OMFS

This course will enable you to:

- Understand basic medical aspects of common systemic diseases, including cardiovascular disease, diabetes, neurologic, and immunologic diseases and how they impact on our anesthesia options.
- Review common and some uncommon medical and anesthetic emergencies that may occur in the office.
- Provide oral sedation techniques specific for the oral surgery practice.
- Review management protocols of common medical emergencies that may occur in the office via actual case-based scenarios.

Group Activities in the Works
- Guided hikes through Bryce, Zion, and Moab
- Bike tours
- Horseback riding
- Family-oriented socials, scavenger hunts, and more

SCHEDULE OF EVENTS

MONDAY, JULY 3

2:00pm - 5:00pm
Registration and check-in

4:00pm - 6:00pm
WSOMS Board Meeting

6:30pm - 8:00pm
Presidents’s Reception

TUESDAY, JULY 4

7:00am - 8:00am
Registration
Breakfast with the Exhibitors (family/guests welcome)

8:00am - 12noon with STUART LIEBLICH, DMD
Ambulatory Anesthesia: Case-Based Focused Review of Techniques and Complications

WEDNESDAY, JULY 5

7:00am - 8:00am
Breakfast with the Exhibitors (family/guests welcome)

8:00am - 8:30am
WSOMS Meeting

8:30am - 12 noon with DANIEL PETRISOR, DMD, MD, FACS
Smile Again: Definitive Implant Reconstruction in the Post-Ablative Patient

6:00pm - 7:00pm
Exhibitor’s Reception

7:30pm - 9:30pm
Western Barbecue

THURSDAY, JULY 6

7:00am - 8:00am
Breakfast with the Exhibitors (family/guests welcome)

8:00am - 12 noon with DANIEL PETRISOR, DMD, MD, FACS
Contemporary Management of Nerve Injuries in OMFS

OOF-OOF!
After several proofing cycles before mailing the hardcopy brochure, we still missed the return address. The brochure you received in US Mail shows an INCORRECT house number (2337). The correct number is 1737. (We fixed it now.) Fortunately, the registration form is accurate. Whew.
