

Survey Consent

Dear Maxillofacial Surgeon

We are contacting you because of your training and expertise in the area of maxillofacial reconstructive surgery. We are recruiting research participants to help us elucidate and understand current practice habits in management of maxillofacial trauma – specifically relating to the management of condylar/subcondylar mandible fractures. Participation involves completing a survey that will take no longer than 10 minutes. No identifiable information will be collected about you, and the survey is anonymous. In addition to the survey questions, we will request demographic information and practice type.

There are no personal benefits or risks to participating in this study. Participation is voluntary, and you can stop taking the survey at any time. A link to the survey is attached below.

If you have any questions related to this survey, please contact Dr. Richard Davila at rdavila@kumc.edu. For questions about the rights of research participants, you may contact the KUMC Institutional Review Board (IRB) at (913) 588-1240 or humansubjects@kumc.edu

Sincerely,

Dr. Richard Davila, Dr. David J Kriet, and Dr. Clinton Humphrey
